

Outsourced Accounting Solutions

As the owner of a business or as a nonprofit manager, do you have the time you need to focus on leading your organization's success? Or are you anchored down in the administration of the business, including its bookkeeping, payroll and accounting functions?

Outsourcing your bookkeeping can often cost less than hiring an on-site bookkeeper and provides real-time, accessible accounting records and management reports that are available when you need them. The accounting team at Spire Group, PC can help you spend less time and money on bookkeeping, and spend more money growing your business.

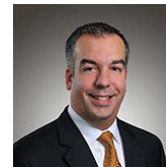

Our services include:

- Active cash flow management/Bank reconciliations
- Accounts receivable/Accounts payable processing
- Payroll processing/Payroll tax reporting
- General ledger posting and maintenance
- Income tax projections
- Management reporting
- Cash flow projections
- Customized reporting

Our CFO Advisory Services practice utilizes Intacct enterprise resource planning software as part of our overall solution in providing you with the best in class in terms of your financial back office.
